

HYDRO OIL

Shield the wood, say goodbye to sanding. Outdoor long-lasting solutions for deckings, garden furniture, claddings and watercrafts.

Main advantages of Hydro Oil solutions

- They are self-consuming and do not peel off during natural aging
- They don't need sanding
- They shield the wood from solar radiation
- They impede fungi, moulds and bacteria from proliferating
- They resist to water
- They defend the wood against salty sea mist
- They protect the wood from abrasions and foot traffic
- They nourish the wood, enhancing its original features

HYDRO OIL

Design and technology Made in Italy

Hydro Oil by Renner Wood Coatings represents the most advanced expression of Italian design and technology in outdoor finishes. Thanks to the best international chemistry, this range provides the highest quality finishes that enhance the natural beauty of wood while adhering to the environmental sustainability principles that have always inspired the research of Renner Group.

Natural selection of beauty

Hydro Oil range, with its rich color offering, is the right solution for every specific project. In developing it, our color designers were inspired by nature. The goal is to provide aesthetic solutions that complement any environment, effectively enhancing the original beauty of wooden surfaces and integrating them respectfully into the locations that host them.

Trendy color charts and endless solutions

The 48 shades of Hydro Oil range, including 24 translucent and 24 pigmented options, are a chromatic synthesis of the main outdoor trends and meet every expectation. Every authorized Renner Group store is also ready to create custom sample coating not present in the extensive catalog. Maximum freedom of expression.
