

Hydro-oils

for on-site application

YS---M605/-----

YS---M625/-----

Design and technology Made in Italy

Hydro-oils range of Renner Wood Coatings represents the most advanced expression of Italian design and technology in outdoor finishes. These products provide the highest quality finishes that enhance the natural beauty of wood while adhering to the environmental sustainability principles of Renner Group.

Hydro-oils range, with its rich color offering, is the right solution for every specific project. The goal is to provide aesthetic solutions that complement any environment, effectively enhancing the original beauty of wooden surfaces and integrating them respectfully into the locations that host them.

Top Quality hydro-oils for on-site application

Outdoor long-lasting solutions of Hydro-oils range are perfect for deckings, garden furniture, claddings and watercrafts. They are ideal for the on-site application by brush and manual roller.

Main advantages

- They highly penetrate the substrate with excellent wood grain highlight
- Suitable for softwoods, hardwoods, and most of the thermally and chemically modified woods
- They are self-consuming and do not peel off during natural aging
- Easy maintenance since the coating film does not flake, allowing a new coating treatment without sanding
- They shield the wood from solar radiation and salty sea mist
- They protect the wood from abrasions and foot traffic
- They contain IPBC
- To be tinted to produce translucent or pigmented colors
- Available in matt (YS---M605/----) and satin (YS---M625/----) version
